

Amendments to the Claims: This listing of claims will replace all prior versions, and listings, of claims in the application

Listing of Claims:

1. (Currently Amended) Kit for remote control of the shutter release of photographic equipment ~~(2)~~ and the like comprising a remote control device ~~(4)~~ preferably of the electrical or electronic type having a release switch ~~(5)~~ and a mount ~~(8)~~ for mounting the ~~said remote control device (4)~~ in order to support the same on a photographic head ~~(3)~~ or other equipment, characterized in that wherein a seat ~~(11)~~ to receive the ~~said remote control device (4)~~ is provided in the ~~said mount (8)~~ and the remote control device (4) is removably housed in the ~~said seat~~.
2. (Currently Amended) The Kkit according to claim 1 in which the ~~said mount (8)~~ comprises an incompletely closed annular strip ~~(9)~~ defining the ~~said seat (11)~~.
3. (Currently Amended) The Kkit according to claim 1 ~~or 2~~ in which the ~~said remote control device (4)~~ comprises an elongated body which is capable of being completely housed in the ~~said seat (11)~~.
4. (Currently Amended) The Kkit according to ~~one or more of claims 2 or 3~~, in which the ~~said mount (8)~~ comprises an appendage ~~(12)~~ extending from the ~~said annular strip (9)~~ outside the seat ~~(11)~~ and fixing means on the ~~said appendage (12)~~ to secure the ~~said mount (8)~~ to the ~~said photographic head (3)~~.
5. (Currently Amended) The Kkit according to claim 4 in which the ~~said removable fixing means~~ comprise at least one hole ~~(13)~~ on the ~~said appendage (12)~~.
6. (Currently Amended) The Kkit according to ~~one or more of claims 4 or 5~~, comprising at least two mounts ~~(8,14)~~ which differ from each other in the relative position between the ~~said annular strip~~ and the ~~said appendage~~.
7. (Currently Amended) An Oorientatable head (3) including a kit ~~(1)~~ according to claim 1 ~~one or more of the preceding claims~~ in which the ~~said mount (8,14)~~ is removably securable to the ~~said photographic head~~ in a plurality of alternative operating positions.

8. (New) The kit according to claim 2 in which the remote control device comprises an elongated body which is capable of being completely housed in the seat.

9. (New) The kit according to claim 3, in which the mount comprises an appendage extending from the annular strip outside the seat and fixing means on the appendage to secure the mount to the photographic head.

10. (New) The kit according to claim 5, comprising at least two mounts which differ from each other in the relative position between the annular strip and the appendage.

11. (New) The kit according to claim 1, wherein the remote control device is of the electrical or electronic type.
